I'm a second-year undergraduate student in Information Technology with a foundational understanding of web development, Python programming, and design fundamentals. I have gained practical, hands-on experience through academic and personal learning, and I am continually working to strengthen my technical proficiency. I am enthusiastic about applying my skills in real-world environments and committed to continuous growth as a developer.

Experience

SmartCart: A Contactless Mobile Shopping Solution for Supermarket
(4th Semester College Mini-Project)
